
■ About **BILLBOARD VIDEO**

BILLBOARD VIDEO is a revolutionary LED design engine, driving creativity into perfection. Billboard Video combines the art and science of LED technology into a unique visual tool that communicates with light in motion.

Our design team serves pioneering clients seeking to produce visionary products that are international in style and scope. Designed and manufactured in the United States, Billboard Video displays are both a major business tool and a visual playground, delivering technology in a way unique to suit each client's individual needs.

Billboard Video has been producing quality LED signs for over a quarter century. In fact, we are proud to be the oldest LED display manufacturer in the country. Over the last 25 years, we have manufactured over 200,000 signs and displays for installation throughout the world. In Times Square, the vast majority of the spectacular LED displays bear the Billboard Video name.

Whether your requirements are simple or complex, budget-bound or blue sky, you'll get the attention, support, and solutions that suit your needs. Since Billboard Video specializes in custom solutions to fit the challenging and distinct design and architectural requirements, we are accustomed to the higher level of demand.

In addition to offering a wide range of standard LED displays, we can also mix and match our modular components and processing technologies to fit your unique requirements. We take pride in our ability to offer custom solutions at competitive prices.
